**DESCRIPTION**

Midtown is another beautiful glass and stone mix that is a perfect addition to any residential or commercial interior. A random strip mosaic will add a sophisticated touch to a variety of settings.

**APPLICATION**

Eleganza glass tiles can be used on residential or commercial interior and exterior walls. Common applications include: bathroom walls and floors, kitchen countertop backsplashes, column wraps, swimming pool interiors and other decorative surfaces.

**INSTALLATION + MAINTENANCE**

Underlayment should be fully cured concrete or properly installed cement backerboard, and must be dry, stable, flat and free of foreign substances, with no risk of water seepage. When adhering, apply a thin-layer of adhesive, spreading smoothly in order for it to dry evenly. Back butter each tile to ensure full coverage with adhesive.

**CUTTING TILES**

Use a standard new, sharp blade suitable for cutting glass tiles, which must be constantly kept wet with water. Cutting the pieces with the colored surface turned upward, and taping both sides will reduce chipping. Smooth off any sharp edges with sandpaper.

SIZE	PCS	THICKNESS
